English Completed ECTS 110

KEY TO TRANSCRIPT

Undergraduate Study Period

The regular period of undergraduate study at GTU is four academic years, excluding the English Preparatory Class.
The grades given to students and other symbols are indicated below.

Grading System

Letter Grade	Equivalent in the 4.0 Scale Grading System	Equivalent in the 100 Point Grading System
AA	4.0	100.00
BA	3.5	88.33
BB	3.0	76.66
CB	2.5	65.00
CC	2.0	53.33
DC	1.5	41.66
DD	1.0	30.00
FF	0.0	0.00
VF	0.0	0.00
NA	Non-Attendance-Fail	
EX	Exempt	
NC	Non-Credit/Not Counted Towards GPA	
S	Satisfactory	
U	Unsatisfactory	
*	Repeat Course	
T	Transfer	

Completion of Courses

In order to complete a course successfully, a student is required to receive a letter grade of (CC) or higher, or a letter grade of S from that course. On the condition that the Cumulative Grade Point Average is minimum 2.00, the letter grades DD and DC received from that course are deemed pass. However, the letter grades DD and DC for certain courses may be deemed fail with the decision of the Senate. The letter grades FF, NA, and U express fail

Cumulative Semester Grade Point Average

Cumulative Semester Grade Point Average is the value to be found by dividing the sum of numbers to be obtained by the multiplication of the credits for the courses a student takes in a given semester by the student's grades in the 4.0 Scale Grading System into the total number of credits excluding the courses with EX, NC, S, and U letter grades. Following the division, the part after the decimal point is rounded off to two decimal places

Cumulative Grade Point Average

Cumulative Grade Point Average is the value to be found by dividing the sum of numbers to be obtained by the multiplication of the credits for all the courses a student takes by the student's grades in the 4.0 Scale Grading System into the total number of credits excluding the courses with EX, NC, S, and U letter grades. Following the division, the part after the decimal point is rounded off to two decimal places. The double major or associate program courses passed by a student who has been removed from that program and do not count towards the student's major program are not included in the Grade Point Average but shown on the transcript and the diploma supplement

Single Course Exam

The Single Course Exam is an exam that a student who has completed all the courses except a single course in the relevant program's teaching plan (excluding the internship courses) can sit for that one single course they have not completed

Academic Standing

The students whose Grade Point Average is between 3.00 and 3.49 at the time of graduation graduate as an "HONOR STUDENT"; the students whose Grade Point Average is 3.50 or higher graduate as a "HIGH HONOR STUDENT", and that is indicated in their transcript. At the end of a semester, the students with a Cumulative Grade Point Average equal to 2.00 or higher are deemed successful. Starting from the end of the second semester, at the end of any semester, the students whose Cumulative Grade Point Average is 1.99 or lower are placed on probation. All the courses with DC or DD grades received by the students on probation are accepted as fail.

Repeating a Course

For repeated courses, the most recent grades received apply.

Foreign Language (English) Preparatory Teaching

The students who fail the English proficiency exams held in the first year of the compulsory English preparatory class may not continue to attend the English preparatory class. However, they may sit all the English proficiency exams held at the beginning of the next teaching year and afterwards. The students who fail to certify their English language proficiency at the end of four semesters are discharged from the University. The students who receive 60 points (CC) out of a total of 100 points from the foreign language exam are deemed competent to follow the English-medium education and teaching in the program they enroll. The foreign language points and their letter grade equivalents are as follows: AA (100-94), BA (93-86), BB (85-78), CB (77-69), CC (68-60).
